### 👤 Personal Details

- Date of Birth : 14/12/2001
- Marital Status : Unmarried
- Nationality : Ethiopian

### ✂ Skills

- Python
- Django
- HTML/CSS
- Vue.js
- Postgres
- Git/Github

### 🗣 Language

- English

### 🎯 Objective

I'm a passionate and detail-oriented Full Stack Web Developer with a strong focus on Python and Django for backend development, and proficiency in HTML, CSS, JavaScript, and modern frontend tools for building responsive and dynamic user interfaces. Over the past few years, I've built a range of projects—from RESTful APIs and admin dashboards to fully functional web applications. My strength lies in building scalable, secure, and maintainable applications, integrating third-party services like Stripe, Firebase, and social login, and optimizing backend logic for performance.

### 📁 Experience

20/08/2023 - 10/02/2024

DebreMarkos University

WEB DEVELOPER

- Developed and optimized a Django REST API to fetch course details from the database, improving performance by 30%.  
Collaborated with a team to enhance the backend architecture, ensuring scalability and efficiency.  
Integrated the API with the frontend for seamless data retrieval and dynamic course presentation. Worked with PostgreSQL to optimize queries and reduce response time.

07/02/2024 - Present

various

FREELANCE DEVELOPER

- Developed web applications using Vue.js, Django, and Postgres for various clients.

### 🎓 Education

09/06/2026

DebreMarkos University

Bsc. Software Engineering

### 🔧 Projects

#### • Bajaj Application

I've developed android application called bajaj to solve transport issue in my area.the application job was to list nearby drivers by fetching locations and also it used as contact book of drivers.

#### • Social Media

I've created simple social media site using Django,the site has unique python algorithm to calculate peoples astrology sign based on ethiopian tradition.

- **Dynamic Portfolio**

I've customized resposive portfolio to be dynamic and interactive by using Django DRF to fetch data from postgres database and customize frontend using vue.js.

- **Other...**
